More than what I have expected, the best workshop out of the 3 I have attended until now with a practice in workshop and the presentos's skill refined the content.

Comments about the quality of workshop facilitation:

Meghan was great. Very positive + friendly.

Gave clear instructions at the beginning that there will be no break. Great facilitation regarding time management and encouraging people to participate.

4. What suggestions do you have to improve the workshop?

Great preparation for the microteaching session, really good to get feedback on own delivery. It would be good to have this as an obligatory workshop before the microteaching sessions. :)

The mini lessons took up a LOT of time and I wish there was a bit more content instead. I realize the presentations contained content but they were mostly delivered quickly and cut off so I never actually heard the material.

I would like to have all mini lessons activities. Useful info we missed.

Explain whether the presentation will be shared or not at the beginning.

I appreciated the distinction between evaluation and feedback. It helps me frame my grading differently so that I can produce both.

I liked the group activities.

Comments about the quality of workshop facilitation:

She is explaining well.

Clear and concise. Well paced. Kept on time.

I appreciated doing the 1st exercise with people in close fields. It would have been helpful to have more targeted sessions on different contexts of feedback.

Would be helpful to give us more reference materials/examples of feedback comments we might be able to use.

This is well organized.

Group work and discussion was great.

To list some causes and suggestion to solve the problems in feedback.

4. What suggestions do you have to improve the workshop?

The time length could be longer to allow us to work on more specific feedback.

The content could have more specific ideas/strategies.

To have more time or instruction for us in order to express students' ideas.
